

SURFOX 304

SURFOX 304 MIG & TIG

THE ONLY ELECTROCHEMICAL
MIG & TIG WELD CLEANING
SYSTEM

New

*Safer and faster than toxic
pickling paste*

“Only the best”

Easily & safely cleans MIG, TIG & Spot welds

Product Features

- Exclusive quick-change carbon fiber brush system reduces downtime
- Unique flow-through brush system ensures consistent, efficient cleaning
- AC and DC modes for effortless switching between cleaning, polishing, marking and etching

*The most
powerful weld
cleaning system!*

A **highly effective** method for removing heat tint from welded stainless steel without altering the surface of the parent material. SURFOX promotes the formation of a uniform and durable chromium oxide passive layer to **protect stainless steel against corrosion**.
