

Gasaver

Issued June 2025 • Index No. GE/32.0

Gas
Equipment 

Quick Specs

Typical Applications

Metal fabrication

Oxy-Fuel Processes

Welding
Brazing
Soldering

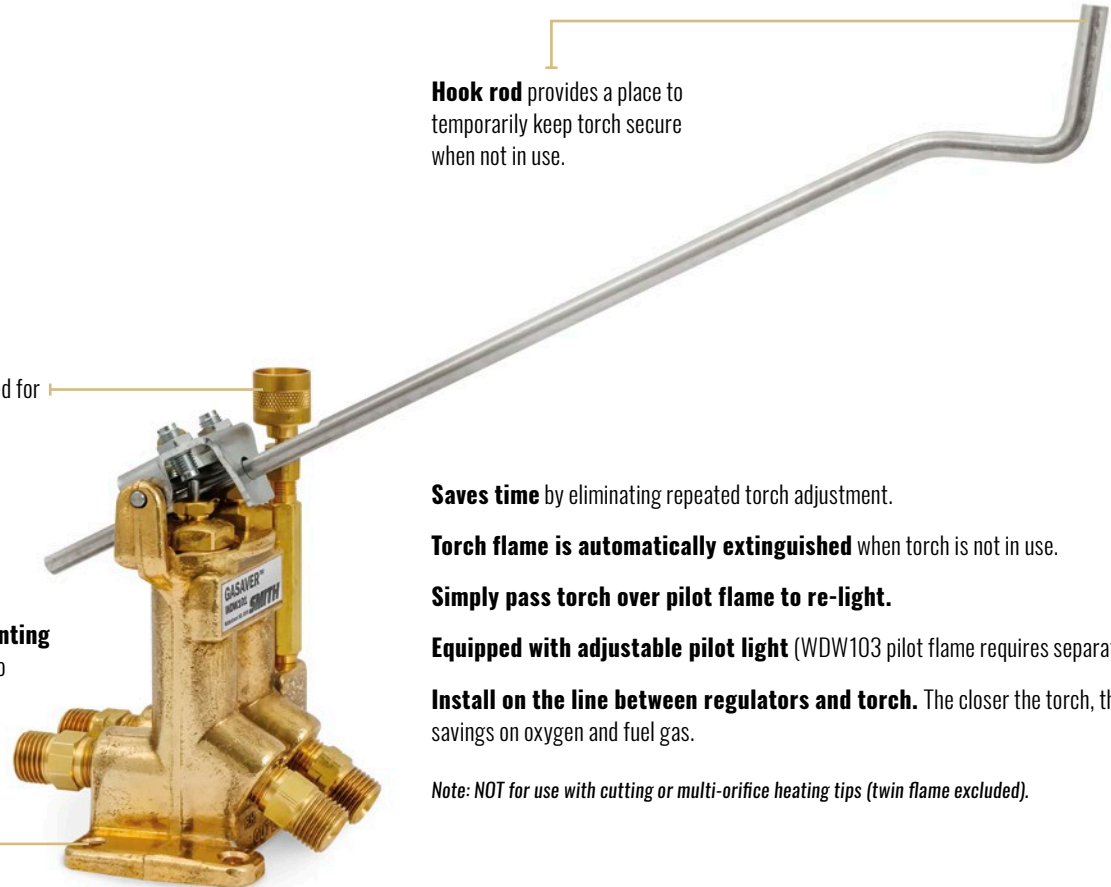

Fuel Gas

Acetylene
Propane
Natural gas
Propylene
Hydrogen

Hose Connection Sizes

Fuel hose: CGA No. 023, Class B, 9/16-18,
left hand (female nut-grooved)
Oxygen hose: CGA No. 022, Class B, 9/16-18,
right hand (female nut-smooth)

Minimize setup time and wasted gas for production brazing and welding applications.

Hook rod provides a place to temporarily keep torch secure when not in use.

Pilot lights designed for specific fuel gases.

Quarter-inch mounting holes for mounting to your work surface.

Saves time by eliminating repeated torch adjustment.

Torch flame is automatically extinguished when torch is not in use.

Simply pass torch over pilot flame to re-light.

Equipped with adjustable pilot light (WDW103 pilot flame requires separate fuel source).

Install on the line between regulators and torch. The closer the torch, the greater the savings on oxygen and fuel gas.

Note: NOT for use with cutting or multi-orifice heating tips (twin flame excluded).

WDW101 model shown.

Gasaver is warrantied for 1 year, parts and labor.

Underwriters Laboratories (UL) Listed
as a shutoff valve.

Pilot Lights

WDW17401
For Gasaver WDW100

WDW1507
For Gasaver WDW101

WDW1508
For Gasaver WDW103 and WDW104

Ordering Information

EQUIPMENT	STOCK NO.	DESCRIPTION	QTY.	PRICE
Gasaver	WDW100	For use with propylene		
	WDW101	For use with acetylene		
	WDW103	For use with low pressure natural gas under 4 psi or hydrogen		
	WDW104	For use with propane or natural gas at 4 psi or above		
REPLACEMENT PARTS				
Pilot Lights	WDW17401	For propylene — replacement pilot light for Gasaver WDW100		
	WDW1507	For acetylene — replacement pilot light for Gasaver WDW101		
	WDW1508	For propane and natural gas — replacement pilot light for Gasaver WDW103 and WDW104
